

OBJECTIVE

To train the students on systematic analysis of a problem and to enable them to bring out a solution it.

OUTCOME

- The objective of the project is to make use of the knowledge gained by the student at various stages of the degree course.
- Each student is required to submit a report on the project assigned to him/her by the department. The report should be based on the literature collected from the many sources and the actual analysis done by the student on the given project.
